VEHICLE DESCRIPTION

Built for the job: 2027 Freightliner Cascadia 126 This new Class 8 sleeper truck is designed for long-haul efficiency and driver comfort. It is powered by a Detroit DD15 14.8L diesel engine delivering 455 HP, paired with a Detroit DT12 12-speed automated transmission. The chassis features a 6x4 drive configuration with tandem rear axles, air ride suspension, and aluminum wheels on a 229-inch wheelbase. Designed for extended trips, this model includes a raised roof sleeper equipped with two beds. With only 150 miles on the odometer, this left-hand drive vehicle is ready to enter service in your fleet. Whether you are expanding your operation or upgrading equipment, this Cascadia 126 offers a modern, dependable solution for heavy-duty hauling.
