VEHICLE DESCRIPTION

Take a closer look at this 2027 Freightliner Business Class M2 106. This new cab and chassis truck is a practical choice for those needing a dependable Class 6 vehicle with a GVWR between 19,501 and 26,000 pounds. Under the hood, it features a Cummins B6.7 engine delivering 250 HP, paired with a 5-speed automatic transmission. This configuration includes a 4x2 drive system with a single rear axle and a 270-inch wheelbase, providing a versatile foundation for various body installations. The truck is equipped with a standard cab and left-hand drive controls, ensuring a professional and functional operator environment for your daily commercial operations.
