Fifth Wheel	Sliding
Fuel Type	-
Ratio	-
Rear Axle	Tandem

VEHICLE DESCRIPTION

2020 Freightliner Coronado | Factory Glider | 340,000 Miles | 70" Mid Roof Sleeper | Signal Green Powered by a Detroit 12.7L 60 Series in a factory glider configuration and paired with an Eaton Fuller 13-speed manual transmission, this Coronado is old-school driveline reliability with the durability the 60 Series is known for. Riding on a 3.55 rear axle ratio and a 260" wheelbase, it's built with the stance and pulling power classic truck operators look for. At 340,000 miles, this unit still has plenty of life left in that 60 Series glider setup. Dual 150-gallon fuel tanks keep you running longer between stops, and 11R24.5 virgin rubber rounds out the classic Coronado stance. The 70" mid-roof sleeper is equipped with a ThermoKing APU for idle-free climate control, along with an inverter and fridge — everything your driver needs to rest easy on the road. □ 2020 Freightliner Coronado □ Signal Green □ Detroit 12.7L 60 Series — Factory Glider □ Eaton Fuller 13-Speed Manual Transmission □ 3.55 Rear Axle Ratio □ 260" Wheelbase □ 340,000 Miles □ 70" Mid Roof Sleeper □ ThermoKing APU □ Inverter & Fridge □ Dual 150-Gallon Fuel Tanks □ 11R24.5 Virgin Rubber Financing available for qualified buyers — call today.
